**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1 – 16 are allowable over the prior art.

The following is an Examiner's statement of reasons for allowance:

The prior art of the record fails to disclose expressly the limitations "a task scheduler that enables said instruction load means to load a next instruction to said first bank of registers and enables said second bank of registers to transfer an instruction loaded therein for processing by said task processor during even a first time cycle domain, wherein said task scheduler further enables said instruction load means to load a next instruction to said second bank of registers and enables said first bank of registers to transfer an instruction loaded therein for processing by said task processor during a second time cycle domain that is interleaved in an alternating manner with said first time cycle domain." and " (e) scheduling steps (a) and (b) to be coincidentally performed during a first time cycle domain and steps (c) and (d) to be coincidentally performed during a second time cycle domain, wherein said second time cycle domain is interleaved in an alternating manner with said first time cycle domain." to effect the evaluating in combination of other limitations recited in claims 1 and 9, respectively.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
